5) CLASS DEFINITIONS

There are two classes available to enter: **TRADITIONAL** and **CREATIVE**. The following definitions of each class should be followed:

a) **Traditional Class** depicts a subject based on a reasonable fidelity to reality. For example, a landscape, portrait, street scene, still life, nature photograph etc, where manipulation, if any, only artfully or delicately enhances reality.

b) **Creative Class** depicts a subject in a substantial departure from realism through the use of various nonstandard techniques and controls. Examples are abstracts, derivations, diffraction, distortions, black light, bas-relief, impressionism, symbolism, montage, dye coloring, color key, multiple exposures, solarization, posterization, tone separation, surrealism and unreal color. In essence, when the obvious purpose of such techniques are to alter reality to the point where the pictures is non-objective or abstract in quality.
